

# PCC D - Natural Resources & Environmental Systems

Analyze and explain the connections within sustainable AFNR systems. [D1](#)

**1 Analyze and explain the connections within sustainable AFNR systems. [D1](#)**

---

Describe natural resource stewardship which supports sustainable AFNR systems. [D2](#)

**2 Describe natural resource stewardship which supports sustainable AFNR systems. [D2](#)**

---

Evaluate and develop solutions for AFNR impacts. [D3](#)

**3 Evaluate and develop solutions for AFNR impacts. [D3](#)**

---

Demonstrate knowledge of biochemical and cellular processes as they relate to AFNR systems. [D4](#)

**4 Demonstrate knowledge of biochemical and cellular processes as they relate to AFNR systems. [D4](#)**

---

Examine and explain environmental hazards to promote safety. [D5](#)

**5 Examine and explain environmental hazards to promote safety. [D5](#)**
